### ActivBrace® 832a

The ActivBrace 832a is designed to comfortably stabilize the knee and provide compression to the leg. The brace is indicated for patients who have experienced mild ligament injuries, have mild to moderate OA, have had knee surgery or who prefer a light weight, more comfortable feel.

- Latex free neoprene sleeve material
- Anterior closure design
- Adjustable strap system
- Reinforced nylon hinge pockets

### ActivBrace® 845a

The ActivBrace 845a is a technologically superior double upright knee brace design that can be configured for a wide range of patient indications, from mild to moderate medial or lateral OA to ligament instability.

- Universal, double upright brace design
- Dual Loadshifters allow for medial or lateral compartment offloading
- Fully-adjustable hinges with extension and flexion stops
- Low-profile brace can be easily worn under clothing
- Patented Townsend hinge helps to prevent brace migration
- Rigid aircraft aluminum provides effective support with light weight materials
- Patented Synergistic Suspension Strap Anti-Migration System
- Anti-rotation control provided by contoured tibia shell
- Approved by SADMERC for HCPCS Code: L1832

The RS-OA Knee System and the OA Solution knee brace work synergistically to relieve pain and improve mobility while helping patients resume healthy, active lifestyles.

**RS-OA™ Knee System**

The RS-OA Knee System is a sequential stimulator that relieves pain and improves function for patients with pain and muscle atrophy associated with Osteoarthritis (OA) of the knee.

- Proprietary patterned muscle stimulation available only from RS Medical
- Clinically proven to reduce OA pain, increase function and reduce stiffness in two weeks.¹
- Combines three unique modalities in a single treatment for one hour daily: Interferential, Patterned muscle stimulation, TENS/TESA²
- Non-traumatic, non-weight bearing adjunctive therapy option

**OA Solution™**

The OA Solution is an off-loading knee brace that helps to relieve pain and improve mobility for patients with unicompartmental OA of the knee. The OA Solution brace can be worn during activity.

- Highly customized fit in an off-the-shelf brace
- Corrective three-point pressure system reduces load on compromised knee compartment
- Maintains a more neutral leg alignment
- Patented technology reduces migration and rotation
- Patented hinge tracks to the motion of the knee
- Lightweight and comfortable to wear
- Effective for medial or lateral osteoarthritis
- Low profile design allows brace to be worn under clothing
- Approved by PDAC for HCPCS Code: L1843
